

Balaji P

b80247@gmail.com | Chennai, India | 8825857729 |

Profile

Aspiring Data Engineer with hands-on experience in ETL pipelines, workflow automation, and data processing through self-driven projects. Interested in building scalable data-driven solutions using modern data engineering workflows.

Skills

Technical Skills: Python, SQL, Pandas, BigQuery, GCP, Apache Airflow, Docker, Git

Familiar Concepts: Snowflake, AWS(S3)

Soft Skills: Team Collaboration, Adaptability, Problem Solving, Time Management, Communication Skills

Languages: English (Fluent), Tamil (Fluent),

Projects

Marketing Analytics Product Scoping & ETL Pipeline

Technologies used: Python, BigQuery, GCP, SQL, Open-Meteo API, Product Design, Logging

- Designed an internal marketing analytics solution by defining target users, business KPIs, dashboard requirements, trust mechanisms, V1 scope, and future roadmap recommendations.
- Built a modular ETL pipeline that extracts weather data from a public API, transforms it into business-focused metrics, and loads datasets into BigQuery using centralized configuration, logging, and exception handling.

GenAI Recruitment Co-pilot

Technologies used : Python, Flask, Generative AI, NLP, Machine Learning, HTML, CSS, JavaScript

- Developed an intelligent recruitment co-pilot system that streamlines the hiring process using Generative AI, NLP, and Machine Learning techniques.
- The application automates resume screening, candidate analysis, and job-role matching through a user-friendly Flask-based web interface..

Internships

Geneartive AI Intern – Aenexz

Aenexz Training and Internship Program

2026

Remote

- Performed machine learning assignments and data analysis tasks using Python, Pandas, NumPy, and Scikit-learn, gaining practical exposure to predictive modeling and classification techniques.
- Implemented data preprocessing, feature engineering, model training, and evaluation workflows using Jupyter Notebook and real-world datasets.

Education

B.Tech in Information Technology,

Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology, Avadi, Chennai

CGPA: 8.1 till Semester VII

Aug 2022 – May 2026

Interests

- Passionate about digital transformation, exploring innovative tech tools, and engaging with content that solves real-world problems.
